Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's arguments filed September 24, 2007 have been fully considered but they are not persuasive. Claims 1-11 are pending. The informalities noted in the first Office action have been corrected. These corrections are appreciated.

Applicant has generally argued that Ishizaki et al (6561751) does not teach or suggest the limitation "whereby during lowering of the boom, a control line of the boom control unit acting in the direction of lowering may be connected with a signal line of the shovel control unit, so that the shovel may be taken into a target position by means of the control pressure tapped at the boom control unit". This statement is not agreed with. While Ishizake et al discloses a horizontal hold control of the bucket with respect to the ground while lowering, it is also necessarily true that during this action the bucket is taken into a target position with respect to the boom.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 11 are rejected under 35 U.S.C. 102(a) as being anticipated by Ishizaki et al (6561751).

Art Unit: 3745

Ishizaki et al discloses a control arrangement having a boom (10) moveable by a boom cylinder (2), a shovel (11) moveable by a shovel cylinder (3), each including a control unit with a pilot control device (4, 5) and a proportional valve (6, 7) for controlling the boom cylinder and the shovel cylinder, respectively, wherein a valve arrangement (37) whereby during lowering of the boom, a control line (19) of the boom control unit acting in the direction of lowering may be connected with a signal line (23) of the shovel control unit, so that the shovel may be taken into a target position by means of the control pressure tapped at the boom control unit. Wherein the mobile equipment is a wheel loader or a backhoe.

Allowable Subject Matter

Claims 2-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3745

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
